Recruitment Team
Oracle Corporation
Casablanca, Morocco

Dear Recruitment Team,

I am writing to express my enthusiasm for an internship opportunity at Oracle Corporation, as advertised. With a robust background in full-stack web development and a passion for leveraging technology to drive innovation, I am excited about the prospect of contributing to Oracle's dynamic team and learning from industry experts.

My experience encompasses various aspects of full-stack web development, ranging from designing compelling flyers at Autovallez Maroc to streamlining stock management systems at Kromberg & Schubert as a Java Application Developer. Additionally, I led the development of a time management system at S-Car Chrono Service and made significant contributions to an e-commerce website at Godogi, demonstrating proficiency in technologies such as React, Next.js, and MongoDB. Recently, I have delved into the Spring ecosystem and Microservices, further expanding my expertise.

I am particularly inspired by Oracle's dedication to innovation and technological excellence, values that closely align with my own commitment to continuous improvement. Just as I apply principles of continuous improvement in both my professional and personal endeavors, I am dedicated to consistently enhancing my skills and abilities.

Thank you for considering my application. I am enthusiastic about the opportunity to discuss how my background and skills align with the internship position at Oracle. I am available for an interview at your earliest convenience.

Sincerely,

Ilyas EL MABROUKI
